Professional Summary

Engineering graduate working at the intersection of data, technology, and financial services. Currently gaining industry experience within a Tier 1 commercial banking environment, applying skills in data analysis, system testing, and digital product delivery to solve real business problems. Brings a combination of technical depth ,Python, SQL, API testing, database systems and practical exposure to how large organizations use data and technology to serve customers and drive commercial outcomes. Comfortable working across teams, communicating technical findings to non-technical stakeholders, and taking ownership of meaningful work. Always learning, and genuinely interested in how technology shapes the future of business and finance in Africa.

Education

Moi University **Eldoret, Kenya**
Bachelor of Engineering — Electrical and Electronics Engineering *2019 – 2025*

- Classification: Second Class Honours (Upper Division)
- Relevant coursework: Computer Programming, Database Design & Management, Object-Oriented Programming, Data Structures & Algorithms, Computer Operating Systems, Network Analysis & Synthesis, Communication Networks, Microprocessor Systems, Control Systems, Engineering Mathematics, Research Methods, Project Management

Professional Experience

NCBA Group **Nairobi, Kenya**
Intern — Retail Digital Banking, Digital Solutions *March 2026 – Present*

- Conducted customer segmentation analysis (30/60/90-day activity, inactive and unregistered cohorts) to support targeted digital engagement campaigns and improve customer activity levels.
- Monitored and reported on digital onboarding performance across local and diaspora channels, identifying bottlenecks and working with stakeholders to resolve failures and improve conversion rates.
- Supported UAT and regression testing for product launches including FX Now and onboarding journeys, ensuring system readiness and identifying defects before go-live.
- Produced data-driven insights on customer behaviour, churn, repayment, and activity trends to support commercialisation strategies and executive decision-making.
- Used Postman to verify API integrations across digital banking platforms, surfacing system-level issues affecting customer-facing services.
- Prepared segmentation datasets for targeted customer campaigns in coordination with Marketing and Communications teams.
- Generated branch-level performance dashboards tracking digital adoption gaps, enabling the field team to prioritise onboarding opportunities.
- Collaborated with cross-functional teams spanning Product, IT, Branch, Marketing, and Operations to deliver end-to-end digital banking initiatives.

WatotoNaCodi **Nairobi, Kenya**
Python Programming Instructor (Part-Time) *Jan 2025 – Jan 2026*

- Designed and delivered Python programming instruction to learners across varying skill levels; tracked performance metrics and refined curriculum based on outcome data.
- Built a structured learning environment focused on logical problem-solving and computational thinking.

AI Community Africa (DataCamp Collaboration) **Remote**
Teaching Assistant — Data Analysis with Python (Voluntary) *Oct 2024 – Present*

- Guided learners through data manipulation, visualisation, and statistical analysis using Python, Pandas, and NumPy; reviewed assignments and provided structured, constructive feedback.

IDP Education **Nairobi, Kenya**
Events Support Assistant (Part-Time) *2025*

- Managed high volumes of student enquiries at educational expos; collected and analysed real-time attendee feedback and maintained accurate event databases.

RIVATEX East Africa **Eldoret, Kenya**
Electrical & Electronics Engineering Attaché *May 2024 – Jul 2024*

- Gained hands-on exposure to industrial electrical systems, power distribution, and manufacturing operations; collaborated with engineering teams to ensure compliance with safety and operational standards.

Kenya Ports Authority **Mombasa, Kenya**
Engineering Attaché *Jun 2023 – Aug 2023*

- Contributed to electrical installations and power systems projects within a large maritime facility; gained exposure to infrastructure management and regulatory compliance.

Leadership & Projects

- Learning Tracks Lead** | *Google Developer Student Clubs (GDSC), Moi University*

Sep 2023 – Aug 2024

 - Led technology workshops for 100+ student developers; built KPI tracking and reporting systems, managed volunteer teams, and developed structured curricula based on systematic feedback analysis.
- Coffee Sales Dashboard** | *Personal Project — Excel & Power BI*
 - Designed and built an interactive sales performance dashboard analysing revenue trends, product performance, and regional sales patterns using Advanced Excel and data visualisation tools.
- Regina Yego Solar Installation** | *IEEE Project, Moi University IEEE Branch*
 - Co-designed and delivered a community solar installation achieving 95% system efficiency; performed load calculations, electrical analysis, and produced full technical documentation.

Skills

- Data & Analytics:** Python (Pandas, NumPy, Matplotlib, Seaborn), SQL (PostgreSQL, MySQL), Advanced Excel (Pivot Tables, INDEX MATCH), Power BI, Statistical Analysis, EDA, Predictive Modelling, Customer Segmentation
- Technology & Systems:** API Testing (Postman), UAT & Regression Testing, Database Design & Querying, Computer Operating Systems (Windows, Linux), OneDrive & SharePoint
- Engineering:** Industrial Electrical Systems, Power Distribution, Control Systems, Solar PV Design, Circuit Analysis, Microprocessor Systems
- Productivity & Communication:** MS Office Suite, Google Workspace, Technical Writing, Documentation, Stakeholder Presentations
- Soft Skills:** Analytical Thinking, Cross-functional Collaboration, Adaptability, Attention to Detail, Leadership, Problem-solving, Communication

Certifications

Data Scientist Associate — DataCamp	Oct 2025
Data Science Mentorship Programme — Everything Data Community	Oct 2025
Data Analyst Associate — DataCamp	May 2025
SQL Associate Certificate — DataCamp	Mar 2025
Career Essentials in Data Analysis — Microsoft & LinkedIn	May 2025
Artificial Intelligence Fundamentals — IBM SkillsBuild	Jun 2024
AI Career Essentials — ALX Africa	Aug 2024
Postman API Fundamentals Student Expert — Postman	May 2024
IIoT Mini-Course: Industry 4.0 — 4.0 Solutions	Jul 2024
Technical Writing Bootcamp — LuxDevHQ	Jul 2023
International Computer Drivers Licence (ICDL) — KCA University	Jun 2019
